

**Notice of Certification / Application ID: 1726**

June 12, 2011

Salvador Sanchez  
Abasto Empresarial, S.A. de C.V.  
2821 Donax Av.  
San Diego, CA 92154

Dear Salvador Sanchez,

On behalf of the United States Department of Agriculture's (USDA's) BioPreferred<sup>SM</sup> program, I am pleased to inform you that your application for use of the USDA Certified Biobased Product Label for Blue 76 has been approved as of June 12, 2011.

The Label remains in effect as long as the product or package is manufactured and marketed in accordance with the approved application and requirements of §2904.5 (i.e. Code of Federal Regulations for the Voluntary Labeling Program for Biobased Products); unless one of these occur:

1. Product or package reformulation: The product or package formulation of the certified product is changed such that the biobased content is reduced to a level below that reported in the approved application. When products have been reformulated, a new application for certification must be submitted in order to resume using the USDA Certified Biobased Product Label; and/or,
2. New minimum biobased content: USDA revises the minimum biobased content required for a product or package to be eligible to display the certification mark and the product or package does not meet the revised minimum. USDA will inform you that your certification is no longer valid. In this case, you must increase the biobased content of your product to be at or above the revised minimum and re-apply for certification within 60 days in order to continue to use the certification mark.

You must read the [BioPreferred Brand Guidelines and Graphic Standards](#) document prior to [downloading label artwork](#). (eAuth login is required)

The BioPreferred program looks forward to a long and successful partnership with you in the promotion of biobased products.

If you have additional questions or would like further information, you may call the BioPreferred Program Information Line (877) 251-6522 or email us at [biobasedlabel@dm.usda.gov](mailto:biobasedlabel@dm.usda.gov).

Sincerely,  
Kate Lewis  
Deputy Manager  
USDA BioPreferred Program

## BLUE 76 LABEL

Blue 76 is an all-purpose liquid fertilizer. Works on any growth media, and on all crops such as fruits, vegetables, trees, vines, shrubs, flowers, ornamentals and grain crops. This product has been laboratory and field tested, and is proven to produce high-yield crop cycles, while rendering premium quality produce. Blue 76 is made with raw materials described by the NOP program established by the USDA.

**PROPERTIES**

- Increases crop size and consistency
- 100% NATURAL ingredients
- Significantly raises crop yield
- Heighten disease-suppression from fungi and bacteria
- Universal: all kinds of crops and media
- Does not clog irrigation systems and equipment
- Liquid form that maximizes nutrient disponibility
- High grade micro and macro nutrients
- Improve quality and soil structure
- Alleviate plant stress
- Root growth is stimulated
- Increase plant stamina
- Pathogen free

CONTENT ANALYSIS					
Nitrogen (N)	- 2.80 %	Iron (Fe)	- 47.00 ppm		
Phosphorus (P)	- 0.25 %	Copper (Cu)	- 5.00 ppm		
Potassium (K)	- 0.45 %	Manganese (Mn)	- 5.00 ppm		
Calcium (Ca)	- 65 ppm	Zinc (Zn)	- 5.00 ppm		
Magnesium (Mg)	- 100 ppm				

APPLICATION INFORMATION			
APPLICATION	PURPOSE	DOSES	INTERVAL
Starting plants	Root and plant stimulation	1 Oz. / Gallon	2 to 3 times / cycle
Foliar Spray	Power soil, and increase plant quality	1 Oz. / 2 Oz.	Every week
Irrigation System	Root, stem and fruit development	10 Oz. / Acre	Every week

**MATERIAL SAFETY DATA SHEET  
FERTILIZER BLUE 76**

Product Name: **Fertilizer Blue 76**

Manufacturer: Abasto Empresarial, S.A. de C.V.  
Oriente 67 A No. 2828 Int 5  
Col. Ampliacion Asturias  
Mexico, D.F. 06890

Tel: (55) 5351-2761

Web: [www.abastoempresarial.com](http://www.abastoempresarial.com)

**I. Material identification and components:**

Trade name: Blue 76

Description: Dark liquid, cider odor

Active Ingredient: Dry beef liver as source of minerals

**II. Ingredients**

Other ingredients: Water

EPA 4A List: All

**III. Physical and chemical data:**

pH: 6.0

Solubility in water: Yes

Specific Gravity: 1.0

Appearance: Liquid

Viscosity: Not determined

Freezing Point: 0 C

Boiling Point: Not determined

Evaporation Rate: Not determined

**IV. Fire and explosion data:**

Flash point: Not determined

Fire hazards: Not flammable

Reactivity: Not determined

**V. Health data:**

General Statement: Material is not considered hazardous

Over exposure effects: Irritating to eyes if contact occurs

Potencial Health: Not established

Ingestión: Not established

Inhalation: Not established

Skin contact: May dry skin

Eye contact: Wash eyes immediately with large amounts of water

ABASTO EMPRESARIAL, S.A. DE C.V.

#### **VI. Reactivity Data**

Stability:	Stable
Avoid:	Excessive heat
Incompatibility:	None detected
Decomposition:	None known

#### **VII. Spill or Leak Procedures**

Small spills:	Wipe up product, rinse soiled area with water down the drain.
Large spills:	Stop leak at the source and collect into a suitable container, then treat as a small spill.

Follow state and local regulations for disposal of large non-reclaimable spills.

#### **VIII: Special Protection Information**

Gloves:	Appropriate protective gloves are recommended
Eye:	Flush with copious amount of water

#### **IX. Special Precautions**

Store and handling:	Store in dry, cooled area inaccessible to children
Precautions:	Store away from intense heat (60 C +)

#### **X. Ecological Information**

Ecotoxicity:	Properly dispose containers
